

Enigma

LUXURY HAIR EXTENSION

Enigma Luxury Hair Extension provides the best quality real hair which is silky smooth and shiny. Our hair, whether it is straight, wavy or curly – keeps its original shape after washing.

We offer hair of different ethnicity:
Light coloured hair which is more fine and soft, similar to European and Slavic hair. Dark hair, which is thicker.

We offer hair lengths from 30 to 80cm and up to 78 different colours.

All of our hair extensions mimic the hair's natural coloring - they are darker at the roots and lighter at the tips, looking just like natural hair which has been exposed to sunlight.

Enigma Luxury Hair Extension provides the best quality real hair which is silky smooth and shiny.

Our hair – whether it is straight, wavy or curly – keeps its original shape after washing.

We offer hair of different ethnicity:

- Light coloured hair which is more fine and soft, similar to European and Slavic hair.
- Dark hair, which is thicker.

We offer hair lengths from 30 to 80cm.

COLOR RING ENIGMA LUXURY HAIR EXTENSION consists of 78colours:

- 27 main colours for hair extensions
- 4 colours for highlights
- 6 crazy colours so that you can create your own unique style
- 41 mixed shades made up of 3 different colours which are designed to closely imitate natural hair. These are often used for men's and ladies wigs.

In addition, Enigma Luxury Hair Extension offers uniquely natural colouring – they are darker at the roots and lighter at the tips, mimicking natural hair which has been exposed to sunlight.

If you cannot find the right shade or highlight colour on our colour shade chart, you can order your required colour with us, we will be happy to assist.

“HOLLYWOOD” EXPRESS HAIR EXTENSION.

Enigma luxury hair extension offers a new style of invisible hair extensions sticker strips.

These blend in naturally with your naturally growing hair, giving additional volume and a silky appearance in just 20 minutes.

Extensions may be applied to temple zones, fringe area and partings which is an ideal way to solve problem hair.

Hair extension professionals are using the most convenient and easy way for a client to achieve the volume and length they require. Hollywood masters and fashion houses are using this sticker strip hair extension method for models. Based on their experience, a new type of hair extension has been developed called ‘Express hair’. Enigma hair extension sticker strips consist of very thin, soft elastic fabric which is similar to body skin. It is durable and may be re-applied up to 20 times!

The area where the hair extension is fixed is very thin – up to 1mm thick. The sticker strip band imitates the way that hair grows, the hair strands are kept separate and avoid the hair clumping into big, thick strands. There is no need to keep combing the extensions to keep them smooth. The hair extension sticker strips can be worn between one to two months. The sticker strips do not cause any harm to your own hair and can be kept in during swimming, in the sauna or in bed while you sleep. No equipment is required in order to use sticker strip extensions. The luxurious quality of the natural hair used by Enigma and special technology in making the strips ensures that you will not have the slightest bit of discomfort during their application. It takes around 20 minutes to apply the extensions and 10 to 15 minutes to remove them.

MICRO HAIR EXTENSIONS ENIGMA

Micro Hair extensions are small locks of hair with Keratin tips. Enigma Micro Extensions are tipped with the best material to attach the micro extension to your hair – Italian Keratin. This means that the micro extensions will stay in your hair for longer and will be almost invisible.

The Enigma keratin holds the hair strands firmly and perfectly in place and the strands are well separated. The Keratin tips have a U-shape which means the hair extensions are easier for the stylist to apply. They are completely invisible and give a strong and

firm hold all the time that the hair extension is being worn. These hair extensions can be worn for up to 6 months, and then correction will be required. The correction process requires the removal of the hair extensions, cleaning and maintenance of the hair extension if the client requires and the hair extension is reapplied with new keratin tips. Length of time for corrections: 1 to 3 hours, depending on the volume of hair.

CLIP-IN-HAIR from ENIGMA LUXURY HAIR EXTENSION

An exclusive clip in extension system that you can use to create your own personal style, shape and volume. Clip in hair extensions are fixed to your own hair with tiny, flat clips which are very comfortable to wear. We use very soft plastic clips because these are the most comfortable to wear and do not cause the slightest irritation to your scalp. Because we use only the highest quality of human hair to make your clip in extensions, you can dye, perm and straighten the hair. Enigma Clip in hair extensions are reliable and comfortable to wear.

Enigma offers two types of CLIP-IN-HAIR EXTENSION:

Option 1:	Option 2:
A set of 4 extension bands: First band- 12cm wide for the back of the head. Second band – 25cm wide for the crown of the head. Third and fourth bands: 4cm wide for the temples.	Clip in Hair wear – A set of 3 bands. First band – for the back of the head and temples. Second and third bands – 4cm wide extensions
	

WIGS and HAIR REPLACEMENT SYSTEM

ENIGMA LUXURY HAIR EXTENSION offers 125 different models of wigs for men and women. The wigs are made from natural hair of the highest quality. Our wigs and clip in items are an ideal solution to the problem of hair loss and are easy to use. The wigs are made using a combination of machinery and hand production processes. The foundation for the wigs is made out of silk or very fine special mesh. These materials

imitate the scalp and it is practically impossible to differentiate the wig from the naturally growing hair.

For those who have very active lifestyles i.e. participating in different sports, we offer a special wig and hair replacement system. The main difference for this hair system is that there is silicon on the base of the outer edges of the hair piece – the hair piece is fixed with medical glue and double sided adhesive tape to the scalp. It stays firmly in place during activity and can be worn for up to one month for people leading an active lifestyle.
